

ALI ABU FADALEH

Computer Science Student · Technology Operations · Software Development
Amman, Jordan · Phone · Email · LinkedIn · GitHub · aliabufadaleh.me

PROFESSIONAL SUMMARY

Computer Science student expected to graduate in July 2026 with hands-on experience in software development, databases, customer operations, and logistics systems. Experienced using Oracle NetSuite ERP within high-volume environments while developing academic and personal projects using JavaScript, C#, PHP, SQL, Python, and Firebase. Interested in software engineering, IT support, technology operations, and data-driven solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript, C#, PHP, SQL, Python, HTML, CSS
Technologies & Tools: Firebase, Git, GitHub, Oracle NetSuite, Microsoft Excel, Microsoft Office
Databases: MySQL, Firebase Realtime Database
Core Competencies: Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability

PROJECTS

UniPulse — Active Campus Dashboard · PHP, MySQL, HTML/CSS
Developed a web-based university collaboration platform enabling students to coordinate study activities, share resources, and track campus events. Contributed to backend functionality, database integration, and performance improvements within a five-member team.

Global Sentiment Pipeline · Python, Hugging Face API, Git
Built an automated sentiment analysis pipeline processing textual data and integrating with machine learning APIs for real-time classification. Implemented secure API connectivity and data processing workflows using Python.

Heart Attack Monitoring System · Firebase, IoT, Real-Time Monitoring · **Graduation Project**
Contributed to an IoT-based health monitoring system tracking patient metrics and providing real-time updates via Firebase cloud infrastructure. Focused on data synchronization, system reliability, and device-to-interface communication.

PROFESSIONAL EXPERIENCE

Customer Service & Operations Agent — Shipa Nov 2024 – Present

- Manage customer logistics inquiries and oversee end-to-end shipment lifecycle tracking within a high-volume shipping environment.
- Utilize Oracle NetSuite ERP to monitor shipment status, update operational records, and maintain accurate real-time logistics data.
- Coordinate with operations and fulfillment teams to resolve delivery issues and ensure efficient workflow execution.
- Support 100+ daily customer interactions while maintaining service accuracy and issue resolution standards.

Customer Service Representative — Extensya Aug 2023 – Oct 2024

- Handled customer inquiries and issue resolution across multiple communication channels while maintaining high satisfaction standards.
- Developed strong communication, documentation, and problem-solving skills within a fast-paced service environment.

Waiter — Ocean Restaurant Jul 2022 – Aug 2023

- Delivered customer-focused service in a high-volume environment, building strong interpersonal communication and time-management skills.

EDUCATION

Bachelor of Science in Computer Science Sep 2022 – Expected Jul 2026
Isra University, Amman, Jordan · GPA: 79%
Relevant Areas: Software Development, Databases, Algorithms, Data Structures, Web Development
